

**PRESS RELEASE 1/19/06**

**From Wauconda Village Trustee Lincoln Knight  
Chairman, Building and Zoning Committee**

The Wauconda building and zoning committee has announced the formation of two sub-committees to explore and advise on the issues of property maintenance. These committees have evolved from the resident's input, which includes conversations, emails as well as two committee meetings in regards to beautifying Wauconda, and our desire to keep residents involved in the process.

The first committee, Exploratory, will explore all aspects of our village including residential, commercial, industrial, and governmental properties. They will list any and all areas that may need attention to improve the character and beauty of our town.

The second committee, Advisory, will take the information from the exploratory committee and formulate recommendations to the building and zoning committee on what action, if any, should be taken.

It is the intention of the village board to involve as many residents as possible in this process. No time frame for completion has been set. The committees will have ample time to gather information and make their recommendations. Again, it is our goal to communicate with the residents of the village of Wauconda and we sincerely appreciate your input.

Wauconda residents who are interested in participating on one of these committees may contact me at [lknight@wauconda-il.gov](mailto:lknight@wauconda-il.gov) or leave a message at the Village Hall 847.526.9600
